DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 2, 3, 7, 8, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Rose (US 5,234,047).

As to claim 3, Rose disclose a mold for forming a precursor casting, having an internal surface, characterized in that the surface defines a location into which a holding member can be inserted to engage an internal member, wherein the location indentation has a first dimension transverse to the surface, and a second dimension generally parallel to the surface, wherein first dimension being less than the second dimension (figure 5).

As to claim 2, the precursor material is formed by removable materials.

As to claims 7 and 8, the location indentation is generally circular and aerodynamic, since it is a turbine blade.

As to claim 9, the location indentation is arranged in pairs (figure 5).

Art Unit: 1725

Allowable Subject Matter

3. Claims 4-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
